EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with M. Brockhaus on 12-20-2005.

2. The application has been amended as follows:

- Claim 1, line 2, after “a floor”, —for receiving storm water— has been added.
- Claim 1, line 13 (last line), after “to the valve”, —and adapted to close said valve upon detection of storm water contaminants— has been added.
- Claim 4, line 2, “a second” has been replaced with —an—.
- Claim 5, line 2, “a third” has been replaced with —an—.
- Specification, page 10, line 8, “68” has been replaced with —18—.
- Specification, page 11, line 21, “68” has been replaced with —18—.

Required Drawing Changes

3. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: "18" in figure 2, will be changed to "68" in order to coincide with the specification ("68" occurs four times in the specification). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:
- Claim 1 was amended to further define the invention. The closest cited art—publication "D" of the IDS—fails to anticipate or render obvious, alone or in any proper combination, the second pipe (that puts the oil/water separator in fluid communication with the dry well) including a valve and an anti-siphon valve, wherein the valve has operatively attached thereto a sensing probe, controls and actuator adapted to close the valve upon detection of storm water contaminants.
 - Claims 4 and 5 were amended to correct for indefiniteness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
